Better design gives added value

Large recovery tank opening provides easy, unobstructed cleaning

Rugged polyethyene solution and recovery tanks are crack, dent and chemical resistant

Solution tank has EasyFlow™ drain hose, and solution feed hose has an in-line filter

UltraFlow™ squeegee automatic raise in reverse. Squeegee features "quick release" blade replacement

QuickChange™ no tools interchangeable deck system

OneTouch™ control panel for all scrub functions. Includes all indicators/gauges

Variable volume horn and backup alarm are standard

EDS - ECO Dosage Solution - ensures that detergent and water are mixed in the exact proportion needed to ensure optimal cleaning results

Steering column is adjustable for comfort: tilts upright for easy boarding

Adjusting side skirts prevent splash, and guide solution to the squeegee to leave floors dry

Ride-on scrubber/dryers

Nilfisk BR 600S/700S/800S

Right size for hard cleaning tasks

Nilfisk Advance

setting standards

Total versatility in ride-on cleaning

The 61 cm model can even scrub right through 81 cm doorways, saving time and increasing productivity

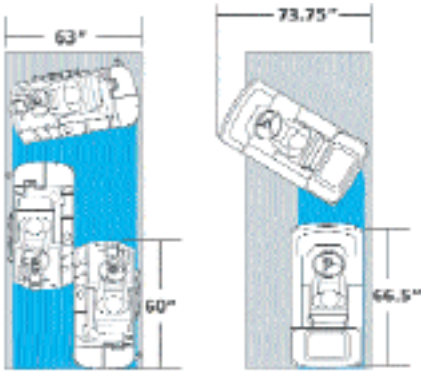
The Nilfisk BR 600S/700S/800S make cleaning floors easy. With the compactness and manoeuvrability to get in and out of tight spaces, and the power to clean effectively in heavily soiled areas, the BR 600S series is suited to a wide variety of applications, from retail areas to factory warehouses.
Flexibility is the key to the success of this machine, and one-pass cleaning has never been easier.

The line is available in eight different configurations, 61, 71 and 81 cm disc and cylindrical scrub paths and with interchangeable decks, the machines gives you tailor-made benefits.

The compact 61 cm ride-on ride-on scrubber fits through a standard 81 cm doorway and turns in an aisle only 160 cm wide!

More mobility for better cleaning performance

- LONGER RUNNING-TIME: EDS - ECO Dosage Solution - allows 13 water tank loads (of 113 litres) before the highly concentrated detergent cartridge needs changing.
- COMPACT: Designed to clean through 81 cm doorways and able to turn in a 160 cm wide corridor, this machine has outstanding manoeuvrability
- USER FRIENDLY: The “OneTouch” control panel provides simple operation of all scrub functions
- CUSTOMISED: Available in eight different configurations, 61, 71 and 81 cm disc and cylindrical scrub paths and with interchangeable decks, the machine gives you tailor-made benefits
- SAFETY: The ergonomic driving position and excellent “ClearView” vision provides safer operation



A) Superior turning ability within 160 cm of radius. This improves productivity by allowing the machines to easily clean smaller aisles

B) Competitive models can’t make the turn

Float system and filter protects vacuum unit and assures optimum airflow

No tools are needed to lift off recovery tank for extra access to batteries and squeegee assembly

The models have easily accessible detergent cartridges

OneTouch™ control in order to start all functions

The EDS - ECO Dosage Solution – is your guarantee of precise detergent metering. The water-detergent mixing ratio is always accurate, never guesswork. Plus, the mixing takes place at the scrub deck – not in the tank, thus eliminating the need to empty and clean the tank since it only contains water. One bottle of highly concentrated detergent allows up to 13 water tank loads (of 113 litres) of operating time before needing to be changed or refilled. EDS offers better productivity by cutting cleaning time. Furthermore, on ECO Solution mode, water consumption is reduced by as much as 50%.
